From the library of B. K. M. acquired in June 1906. His detailed pencil annotations are found throughout. Also included are eight sheets of graph paper crowded with pencil notes comparing Hays, Doughty and Chapman numbers.

105 (Kosoff, A.). **MASTER COPY. THE OSCAR J. PEARL COLLECTION**. (New York: Numismatic Gallery, 1944). 21 photocopied sheets, numbered 3-23. Stapled together at the upper left corner. (35.00)

An important set of photocopies made in 1981 by Mrs. Pearl. Derived from Pearl's personal copy, listed here are Pearl's cost for all but five duplicate coins listed at the end. Overall, the prices listed by Kosoff appear to be at least double Pearl's cost. Useful.

The photocopies, besides listing the condition of the best coin, provide pedigrees of coins from 1793 to 1806. The file cards do not give pedigrees but do list the condition of, in some cases up to eight, duplicates. Both listings were undoubtedly compiled shortly after arrival of the Clapp cents at the American Numismatic Society for utilization in the condition census of *Early American Cents*.

Dorothy Paschall's copy with her interesting and useful annotations. A most important collection, purchased by two Worcester dealers from an unknown source and still the subject of much conjecture. Well catalogued by Dr. William H. Sheldon who incorporated into the catalogue "recent changes in known early and basal value." The catalogue thus serves as a still of supplement to *Early American Cents* until Penny Whimsy appeared several years later.

(8) 196 pages. text illustrations. Original printed blue card covers worn. taped at the spine, numerous annotations. (100.00)

One of only 300 copies printed of the first major work on pattern coins. Bruce McPherson with a 1945 letter on Stack's letterhead, signed by Jos. B. Stack and pertaining to the purchase of the book, folded and taped in at the end. Also taped in is a sheet of additions to the book removed from Stack's 1942 Numismatic Guide. The annotations largely consist of detailed notes on auction appearances in the 1940's including price and rarity. McPherson also notes coins in his collection along with other interesting observations.

ILLUSTRATED ON EIGHT PHOTOGRAPHIC PLATES.** New York: Wayne Raymond, 1925. 36 pages, 8 fine photographic plates. Original crimson cloth, gilt, binding just a trifle worn. Fine. (1,000.00)

Rare and desirable. Probably one hundred or fewer copies were originally issued. Browning was a meticulous researcher and relatively few new varieties have appeared in the intervening years. Still the standard work though a revised edition by Walter Breen is nearing publication. This copy was sold in our June 4-5, 1985 sale, originally in "A Great American Library."

624 Browning, A(r)d W. **THE EARLY QUARTER DOLLARS OF THE UNITED STATES 1796-1838, WITH A FEW REMARKS CONCERNING THEIR TYPES, VARIETIES AND RARITY. Quarto. Original brown decorated cloth, gilt, extremities and spine worn but sound, internally fine. (200.00)

Medical doctor, American archaeologist and numismatist, Dickson in this popular work endeavored for the first time to cover the entire range of American numismatics. Like most pioneering efforts it is not without error. Nonetheless, it found immediate and widespread acceptance going through three editions in six years. It is an attractive, well-produced and extensive work filled with information still of interest today.

Adams, Volume II: "In November, 1950, Charles Wormser hired John Ford, and perhaps the most important chapter of numismatic cataloging was begun. Sometimes abrasive but always insightful, Ford ranks in a class with Sylvester Crosby, Lyman Low, David Proskye, and Wayne Raymond as one of the great numismatists this country has produced. His cataloging features meticulous accuracy and conservative grading; his descriptions are full and informative, covering a range of material that spans the gamut of our hobby. Others have rivalled Ford's penchant for detail, but none have better explored the by-ways of history and tradition for which numismatics are such a natural entry. As if one world-class numismatist were not enough, New Netherlands hired Walter Breen in 1952. Blessed with a restlessly inquiring mind and a prodigious memory, Breen added new dimensions to the firm's research. His findings on the dates, diagnostic features and the then condition census add another rich layer to the utility that New Netherlands' catalogues will always possess. ... Sale 1 through 25 are either scarce or, in a few cases, rare. ... The New Netherlands catalogues represent something special in American numismatics. They demonstrate with eloquence that the business of dealing in coins can also embrace the functions of educating the collector and preserving the traditions of the hobby. In so doing, the members of the firm have set an example which, though rarely observed, will nonetheless act as a beacon to the profession in years to come."
